

Lesson 2: How would you lay out your web page?

Year 6 – Creating Media – Web page creation

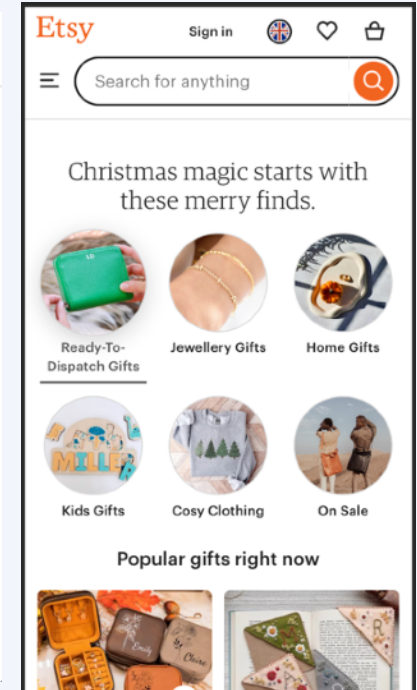

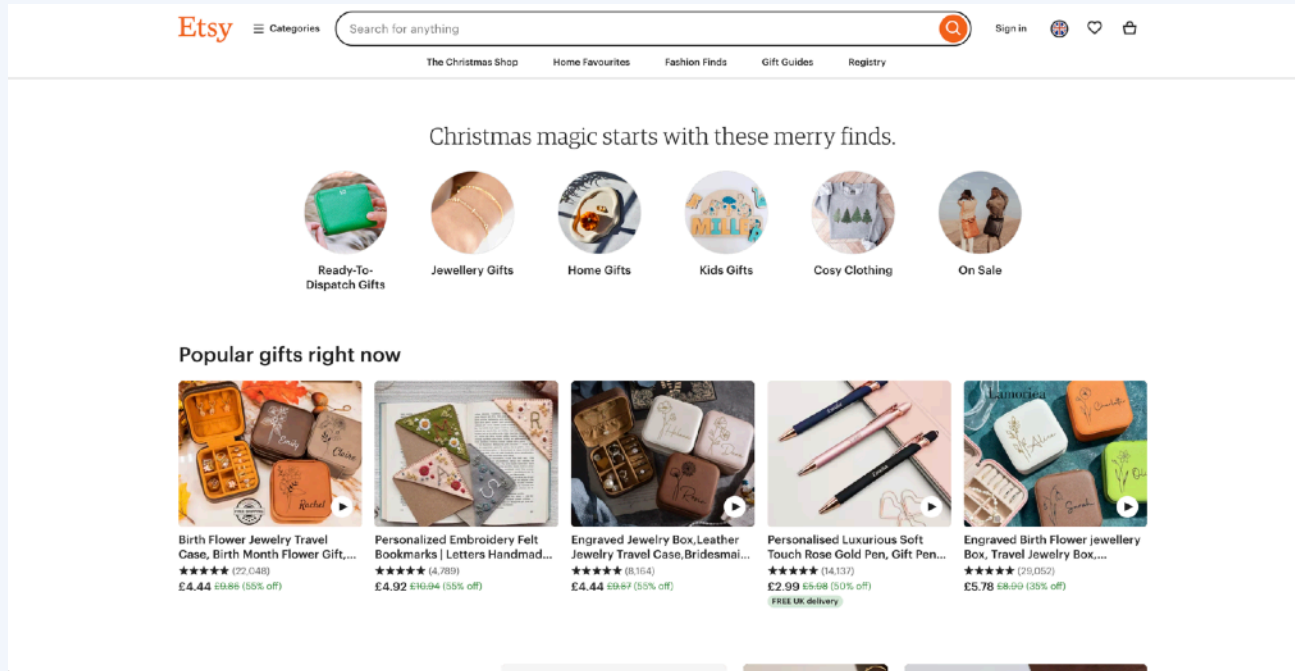

What's the purpose?

- Websites are always created for a purpose. People have lots of different reasons for creating websites.
- If you make a website you need to think about who it is for (the audience) and why you are making it (the purpose).

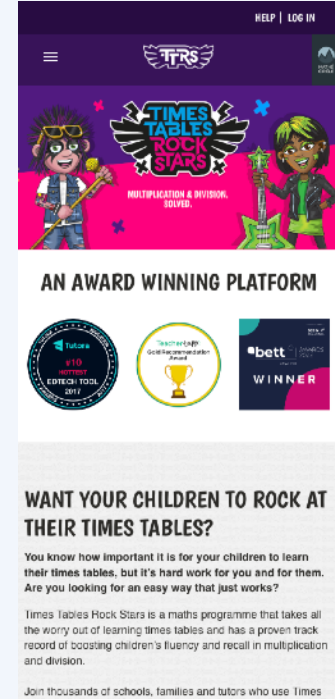

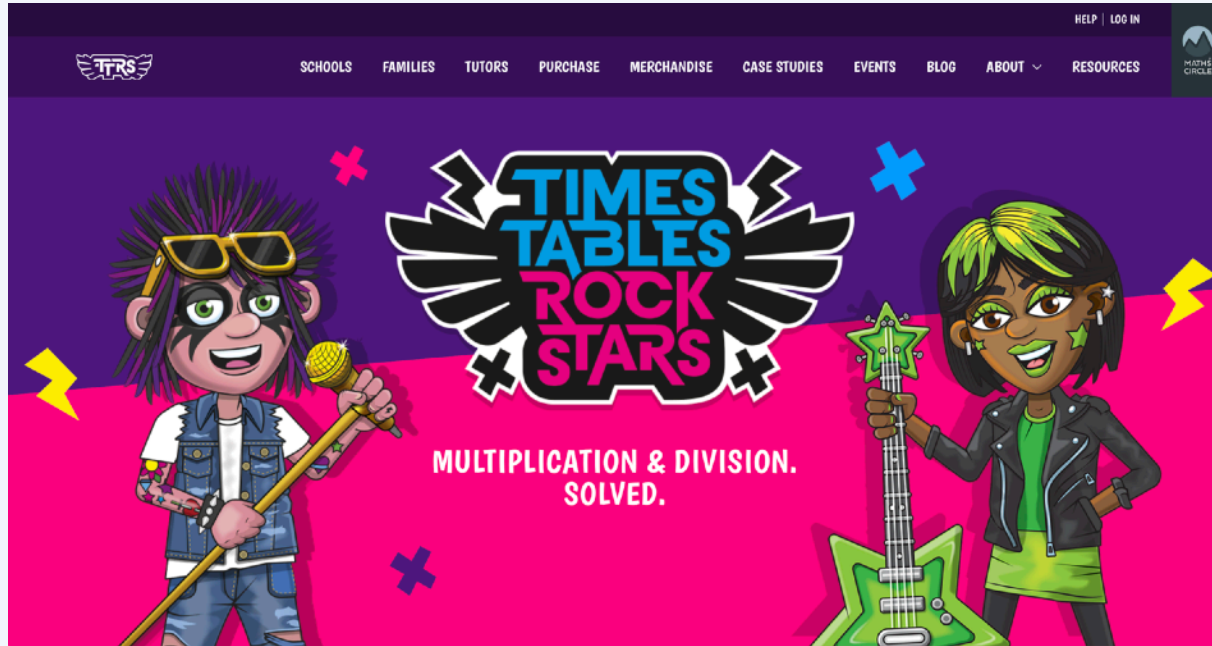

What's the purpose?

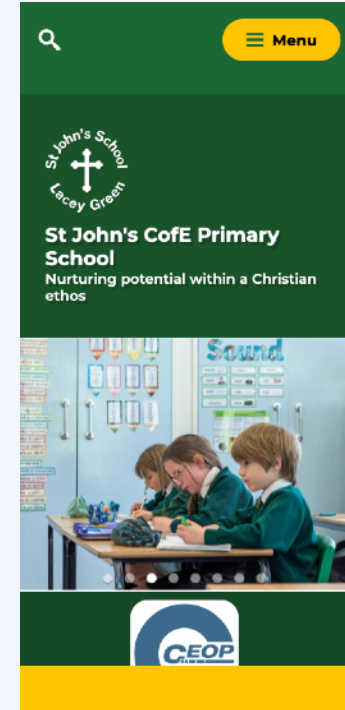

Question: Why has this web page been made? Who is the audience? How do you know?
